

## Know your Florida fish: Greater Amberjack and Banded Rudderfish

Quick tips to identify these common species

### Greater amberjack *Seriola dumerili*

When folded, the end of the first spine in the dorsal fin is line with the base of the anal fin.

### Banded rudderfish *Seriola zonata*

When folded, there is a gap between the end of the first spine in the dorsal fin and the base of the anal fin.

Funding for the creation of this Boating and Angling Guide was obtained through the West Coast Inland Navigation District and Charlotte County

Additional funding for this project was obtained through the Federal Aid in Sport Fish Restoration Fund.
